Concept Mapping: Fun for Librarians

Through reading I was amazed to discover how confused people were. (p. 23)

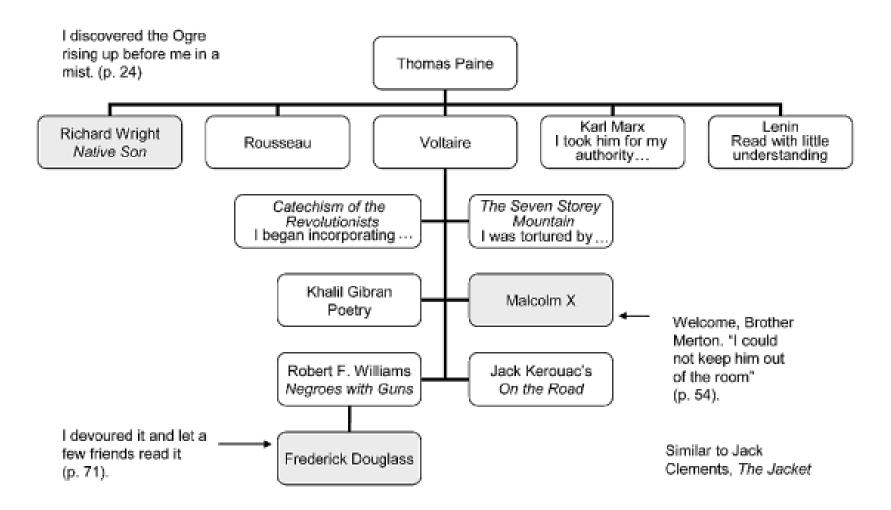

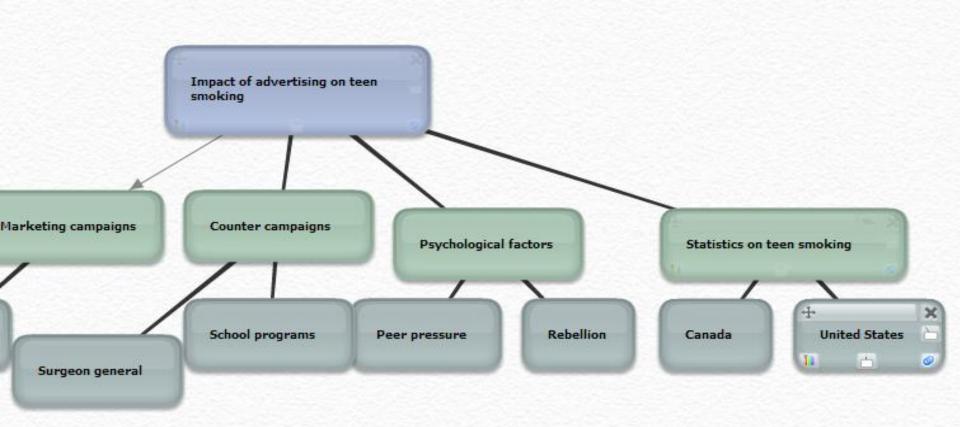

FIGURE 1.1. Eldridge Cleaver's textual lineage, constructed from reading *Soul on Ice* (1968).

How to Create a Concept Map

1. Identify the general/broad topic that you are interested in.

Example: You are interested in the general topic of obesity

Brainstorm on the general topic and list all the concepts and themes that are related to the topic on a large p concepts as concise as possible.

Example:

Who?	Kids	Obese parents
How many?	Adult female	Unhealthy Diet
Reasons or causes of	Mothers	Little physical exercise
Effects of	Depression	Soda pop
More fast food	Genetic	Dessert
Bigger portions	More TV viewing	Too much sugar
Large fries	Sedentary life 9	
Diabetes	Low work prod	Concept map exercise for crafting
Technology dependent	Low self-estee	Concept map exercise for charting
Stroke	Poor emotiona	search strategy.
Heart disease	Physical fitnes	3 ,
High-blood pressure	Balanced diet	Created by Utah State University
Balanced diet	Nutritious mea	Libraries Reference Services

Less fast food

/cm/CMinstruction2.htm

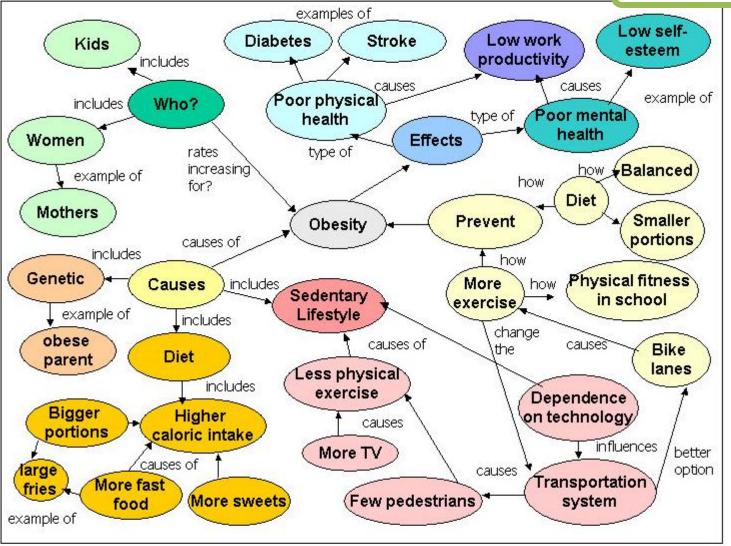

3. Using unlined paper, write the main theme in the center of the page.

Little sugar

4. Take the other concepts identified in the brainstorming and connect them to the center concept. You can use of such as branches, arrows or groups. More important ideas should be put nearer to the center and less important.

s, arrows or groups. More important ideas should be put nearer to the center and less ationship between the concepts.

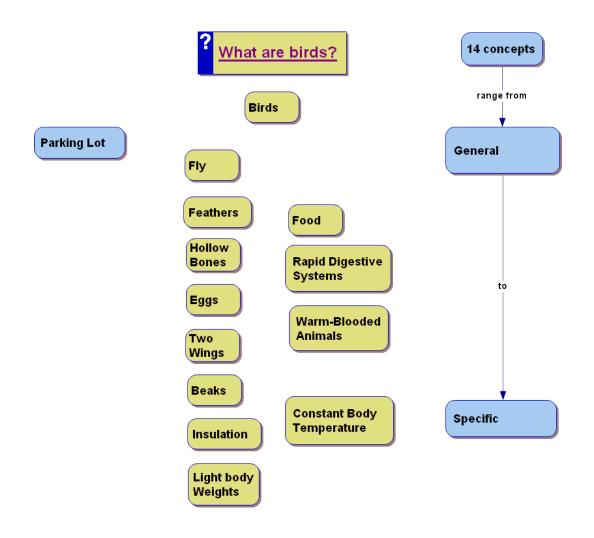

Active learning

has been created, look at the organizational patterns to see if the pieces fit together and make sense and if there g. After the map has been created, look at the organizational patterns to see if the pieces fit together and make se g missing.
