

Exemple de correu-e per confirmar a Google Apps la condició de centre educatiu

I'm, director of Institut Pere Fontdevila in Gironella (Catalonia - Spain). Our school teaches public general education from 12 to 18 years age.

I signed in APPS because I think that it's a fabulous service. I know this service because other schools in my country are using it. It's a fabulous tool for collaborative work and communication for our community.

Our pupils are minor of age, so I shall notify there parents that we open a scholar account for Google APPS.
