

Students' work – Guided writing

1.

Too many people write about love,

I want to write about my scooter!

I remember exactly when I got it, it was Christmas day and I found it in the living room, near the tree.

I was very very happy, and I can't describe my happiness in that moment!

It's white and very nice. It's small and quick.

With it I feel free and I feel a butterfly because I can fly! When I drive it, I forget all my problems and all my thoughts..

I love it..

2.

Too many people write about love.

I want to write about my Turtle Necklace.

The pendant has the form of Tortoise.

It's small and white.

I always wear it.

I use it as a Bracelet.

It's very Important to me.

I Love it so much

3.

Too many people write about love.

I want to write about my dance shoes.

My dance shoes are pink with a rubber band to prevent them from falling off the foot.

I don't remember where I left them.

I remember only that I put the dance shoes in the bag.

But when I got home and I opened the bag I didn't find them.

I hope to find my dance shoes!

4.

I want to write about my guitar.

It's dark brown

A present from my parents

I had it when I was thirteen

and I play it every day.

I sometimes look at it

and I remember when

I was with my friends.

5.

Too many people write about love

I want to write about my bed.

It's comfortable ...

I was not there when it was born, but

It was there when I was born.

I loved it from the first moment.

It keeps me warm and it keeps me company.

It is of many colors.
