Concept Mapping for Communication Studies
January 18, 2012
http://bit.ly/mcgillcoms

Draw on your two readings for this week to create a concept map that shows the relationships between/among some or all of these terms. Save your map to the shared Cmap folder and prepare to discuss it next week in class. Feel free to work alone or in teams of 2-3 people.

- *Internet Governance: A Primer*, by Akash Kapur
- Introduction to *An Introduction to Internet Governance* by Jovan Kurbalija

Terms

Actors in Internet governance	Principles of Internet governance
Analogies (7 of them)	Infrastructure layer
Approaches to Internet governance	Intellectual Property Rights
Barriers to participation in Internet governance	Interconnection issue
Content layer	Internet pollution
Cybercrime	IP allocation and numbering
Definitions of Internet governance	Logical layer
Development	Management of Domain Name System
Digital divide	Next-generation pathways
Diplo's 5 'baskets' classification	Phases of Internet Governance
Governance	Standards
	Universal access
