

***«Nothing is as scandalous rags
and no crime is shameful as
poverty.»***

George Farquhar

Poverty : scarcity and lack of the things you need
[Latin : paupertas , egestas , inopia] .

The families who are in poverty live the daily difficulties of not having enough food to eat : the loss of jobs in the sector has led to increased poverty. The poverty rate is the percentage of people living in this condition in a given geographical area .

FACTORS OF POVERTY

" In a rich country, the money is pieces of paper with which you can buy consumer items to the market. In this way, we only customers. Even a millionaire is just a client and nothing more. And in a poor country ? In a poor country, money is a stupid, bizarre barriers and often thriving, which separates it from anything else. "

RYSZARD KAPUSCINSKI

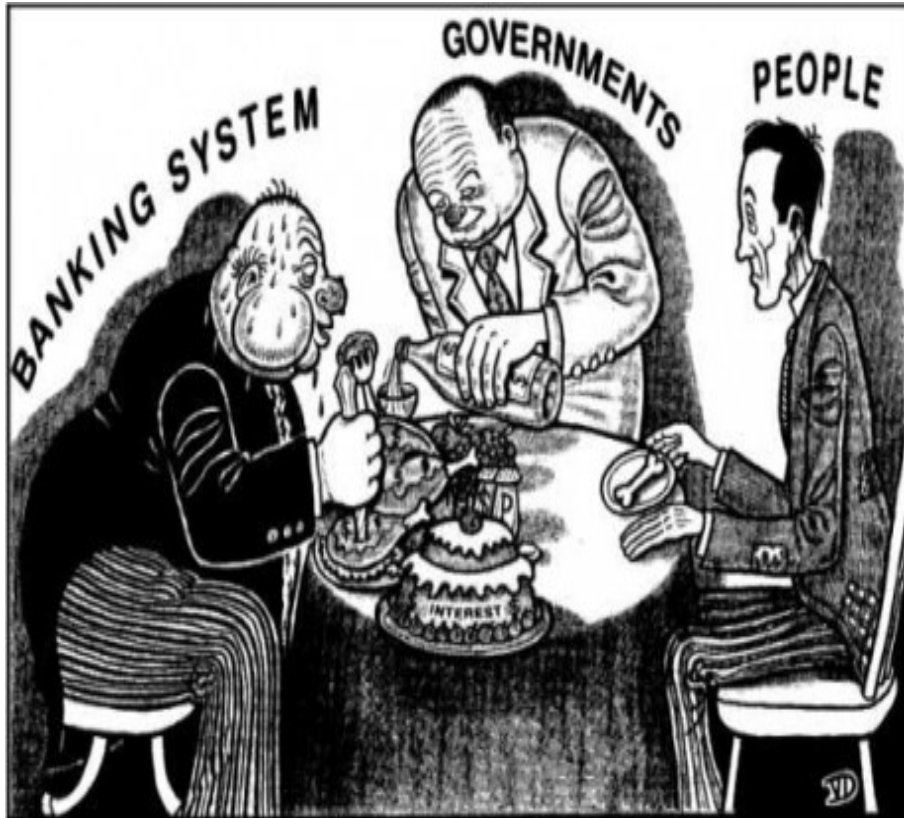

“My dream is to Picasso
have much money to live in
peace like the poor.”

FERNANDO SAVATER

"Laziness walk so slowly
that poverty is no great
effort to attain it."

CONFUCIO

"Sometimes it's difficult to make the right choice because or you are eaten by pangs of conscience or those of hunger."

TOTO

"When the rich wage war on each other, the poor are who die."

JEAN-PAUL SARTRE

" You try to solve the poverty's problem keeping the poor in life or, according to a school far more evolved, amusing the poor. This is not a solution but a worse problem. The right way would be to reconstruct society on such bases that poverty is impossible. The altruistic virtues have not done anything to prevent its realization . Just as the worst slave-owners were those who treated their slaves humanely and in this way prevented the horrible system that would be fully understood by those who suffered both by those who watched him, so do the most damage are the ones who try to do the well " .
