

Relative Pronouns

Relative pronouns are used to connect a clause or phrase to a noun or pronoun.

We often see them when we need to add more information. They are:

- who
- whom
- which
- whoever
- whomever
- whichever
- that

For example:

- The driver **who** ran the stop sign was careless.
- I don't know **which** pair of shoes you want.
- Take **whichever** ones you want.
- No, not **that** one.
