

# Interrogative Pronouns

---

Interrogative pronouns do just what they say. They work in sentences that are posing a question. They are:

- who
- whom
- which
- what
- whoever
- whomever
- whichever
- whatever

For example:

- **Who** is going to arrive first?
- **What** are you bringing to the party?
- **Which** of these do you like better?
- **Whatever** do you mean?
